Student at Computer Engineering | Part-Time Software Developer at City Technologies Center

I'm a **computer engineering student**, with over 3 years of experience in programming. Besides, I work as a software team member at **City Technologies Center**. I have soft skills such as **organization, teamwork** and **communication**. And I've taken on some voluntary responsibilities in some organizations such as YAGET (Development in Software Community), RL Türkiye, and QTurkey. These organizations made me better at social skills such as **business and process development, organization, communication skills**; technical skills like **debugging, researching, and developing**. I'm a person who is **innovative, adaptable, collaborative**, and willing to **improve** own self and the others.

Intermediate Level in **English** | Beginner Level in **French**.

Technologies. *Beginner* at Java, JavaScript, Flutter, Android Studio, Unreal Engine, Unity; *Intermediate* at Adobe Photoshop, VS Code, HTML, CSS; *Upper Intermediate* at MS Office Programs.

Skills. Communication, Teamwork, Leadership, Organization, Presentation, Social Media Management, Creative Content Development, Research, Translation.

EDUCATION

Bachelor of Science (BS) in Computer Engineering, KTO Karatay University, Konya, 2018-Still

WORK EXPERIENCE

[City Technologies Center](#), Konya

July 2022-Still

Software Team Member

- Front-end development for website of the company. (React)
- Worked for KonyaScope which is a project related to data science.
 - Developing codes to create .csv files and move on the map. (Python)
 - Processing images according to the desired shapes. (Adobe Photoshop & Python)

It is a perfect opportunity to have experience in my field as a student.

[KTO Karatay University](#), Konya

Oct 2019-Apr 2022

Student Assistant
